DISCRETE MATHEMATICS

Author index to volume 181 (1998)

Abel, R.J.R. and H. Zhang, Direct constructions for certain types of HMOLS	(1–3)	1– 17
Alon, N. and E. Halperin, Bipartite subgraphs of integer weighted graphs	(1–3)	19– 29
Amar, D., S. Brandt, D. Brito and O. Ordaz, Neighborhood conditions for balanced independent sets in bipartite graphs	(1–3)	31– 36
Bóna, M., Permutations with one or two 132-subsequences (*Note*)	(1–3)	267–274
Bogart, K.P. and G. Isaak, Proper and unit bitolerance orders and graphs	(1–3)	37– 51
Bouchet, A. and W. Schwärzler, The delta-sum of matching delta-matroids	(1–3)	53– 63
Brandt, S., see D. Amar	(1–3)	31– 36
Brito, D., see D. Amar	(1–3)	31– 36
Burlet, M. and A.V. Karzanov, Minimum weight (T, d)-joins and multi-joins	(1–3)	65– 76
Burzio, M. and G. Ferrarese, The subdivision graph of a graceful tree is a graceful tree (*Note*)	(1–3)	275–281
Byard, K., see D. Jennings	(1–3)	283–288
Chen, Z., Integral sum graphs from identification	(1–3)	77– 90
Deiters, K. and M. Erné, Negations and contrapositions of complete lattices	(1–3)	91–111
Erné, M., see K. Deiters	(1–3)	91–111
Ferrarese, G., see M. Burzio	(1–3)	275–281
Fiduccia, C.M., E.R. Scheinerman, A. Trenk and J.S. Zito, Dot product representations of graphs	(1–3)	113–138
Graham, R.L., B.D. Lubachevsky, K.J. Nurmela and P.R.J. Östergård, Dense packings of congruent circles in a circle	(1–3)	139–154
Halperin, E., see N. Alon	(1–3)	19– 29
Iorgulescu, A., Connections between MV_n algebras and n-valued Lukasiewicz–Moisil algebras Part I	(1–3)	155–177
Isaak, G., see K.P. Bogart	(1–3)	37– 51
Jennings, D. and K. Byard, Qualified residue difference sets with zero (*Note*)	(1–3)	283–288
Karzanov, A.V., see M. Burlet	(1–3)	65– 76
Kilakos, K. and F.B. Shepherd, Face extensions in planar cubic graphs	(1–3)	179–191
Lubachevsky, B.D., see R.L. Graham	(1–3)	139–154
Łuczak, T., V. Rödl and T. Schoen, Independent finite sums in graphs defined on the natural numbers (*Note*)	(1–3)	289–294
Nurmela, K.J., see R.L. Graham	(1–3)	139–154
Ordaz, O., see D. Amar	(1–3)	31– 36
Östergård, P.R.J., see R.L. Graham	(1–3)	139–154
Rödl, V., see T. Łuczak	(1–3)	289–294
Scheinerman, E.R., see C.M. Fiduccia	(1–3)	113–138
Schoen, T., see T. Łuczak	(1–3)	289–294
Schwärzler, W., see A. Bouchet	(1–3)	53– 63
Sciriha, I., On the construction of graphs of nullity one	(1–3)	193–211
Shepherd, F.B., see K. Kilakos	(1–3)	179–191
Shyr, H.J. and Y.S. Tsai, Free submonoids in the monoid of languages	(1–3)	213–222
Trenk, A., see C.M. Fiduccia	(1–3)	113–138
Trenk, A.N., On k-weak orders: Recognition and a tolerance result	(1–3)	223–237
Tsai, Y.S., see H.J. Shyr	(1–3)	213–222

Wojciechowski, J., On constructing snakes in powers of complete graphs (1–3) 239–254
Yan, C.H, Distributive laws for commuting equivalence relations (*Note*) (1–3) 295–298
Yuan, J., see S. Zhou (1–3) 255–266
Zhang, H., see R.J.R. Abel (1–3) 1– 17
Zhou, S. and J. Yuan, Harper-type lower bounds and the bandwidths of the compositions of graphs (1–3) 255–266
Zito, J.S., see C.M. Fiduccia (1–3) 113–138
